

## **Machinist**

### **Job Description**

P3 Technologies has an immediate opening for an experienced machinist. The preferred candidate will have 3 - 10 years experience machining complex hardware on CNC lathes and mills. Experience machining precision parts for rotating machinery, along with familiarity with aerospace materials is a plus.

The selected candidate will be responsible for machine setup, machining, and in-process inspection. CNC programming ability is a plus, but is not required.

### **Basic Qualifications**

U.S. Citizen (green card or authorization to work in the U.S. is insufficient)

3 years CNC machining experience (lathe and/or mill)

Ability to work within an AS9100 compliant environment

Attention to detail

A focus on safety and proper use of personal protective equipment

Positive attitude and ability to work well with others

### **Desired Skills**

Familiarity with machining aerospace alloys

Experience with aerospace tolerances

Proficient with manufacturing drawings and GD&T
